The DIGITUS® SoHo Series is made for high demand IT-Infrastructure Solutions - designed and developed on highest standard in Germany

The DIGITUS® Network Cabinet SoHo Series is designed and produced for cabling and networking components. They provide maximum optimization resulted to an optimum performance in between quality and added value. Each cabinet is designed with strength, ease of use and aesthetics in mind. Features such as 1 unit marking on the mounting profiles, easy and quick release doors, fully adjustable front and rear profiles of the cabinet make the product extremely attractive to installers. The incredible design of the SoHo Series is rounded up with the use of a framed smoked safety glass front door fitted with a swing handle lock. Door hinging can be quickly reversed left to right. The SoHo Series is available in 3 heights from 22 units up to 42 units. A various size of 600mm and 800mm depth are in the portfolio of the SoHo Series. Each cabinet includes lockable glass front door, lockable steel back door. Furthermore 2 sets of adjustable mounting profiles are equipped, and the roof is prepared for fan trays and entry brush stripes are included. A huge range of DIGITUS® accessories are available to customize the cabinet due to the needs of the end-user.
